Title: Recording of Aircraft Conveyances and Security Documents

Form Numbers: AC Form 8050-41, Notice of Recordation

Type of Review: Renewal

Background: The Federal Register Notice with a 60-day comment period soliciting comments on the following collection of information was published on April 23, 2020 (85 FR 22784). Statute provides for establishing and maintaining a system for the recording of security conveyances affecting title to, or interest in U.S. civil aircraft and qualified engines, propellers, and/or spare part locations, and for recording of releases relating to those conveyances. A lienholder submits a lien against aircraft and/or qualified engines, propellers, and/or spare part locations to the Registry for recording. The Registry records the lien and sends an AC Form 8050-41, Notice of Recordation – Aircraft Security Conveyance, to the lienholder. When the lien is ready for release, the lienholder completes Part II – Release at the bottom of the form and returns it to the Registry as official notification that the lien has been satisfied.

Respondents: Any aircraft, propeller, engine or spare parts location lienholder, who has received the Notice of Recordation from the Registry, and is releasing the subject lien.

Frequency: On occasion.

Estimated Average Burden per Response: 1 hour.

Estimated Total Annual Burden: During FY 2019 the FAA received 22,370 release notifications for a total time burden of 22,370 hours.

Issued in Oklahoma City, OK on November 5, 2020.
